

Building the Platforms Needed to Scale Your Business

From conceptualizing cloud-native platforms to hands-on implementation and integration, Effectual designs secure, resilient, multi-region cloud-native platforms as code. Our approach accelerates adoption of the technologies your business relies on to innovate in the AWS cloud. As certified platform engineers, our experience spans a vast array of automation technologies, industries, and scenarios—encompassing the latest cutting-edge cloud-native solutions.

Effectual has deep expertise developing multi-cloud platforms using technologies like Terraform, Kubernetes, Helm, Kafka, Ansible, and other tools within the Cloud-Native Computing Foundation (CNCF) Landscape. We prioritize developing a thorough understanding of your technical and organizational needs to engineer scalable platforms that will accelerate business outcomes without sacrificing on compliance.

Effectual Platform Engineering Accelerators

- ▶ Prescriptive Reference Architectures
- ▶ Blueprints for Self-Service infrastructure provisioning
- ▶ Code Management Guidelines on leading practices
- ▶ 200+ IaC modules
- ▶ Policy as Code Templates
- ▶ Operational Runbooks

IaC Tools

- ▶ Terraform
- ▶ CloudFormation
- ▶ Pulumi
- ▶ AWS CDK
- ▶ CDKTF

CI/CD Tools

- ▶ Harness
- ▶ Github
- ▶ GitLab
- ▶ Atlassian
- ▶ ArgoCD
- ▶ Bamboo
- ▶ AWS CodePipeline

Certifications, Credentials, Awards, and Recognition

AWS Competencies

- ▶ DevOps Consulting Competency
- ▶ Digital CX Services Competency
- ▶ SaaS Consulting Competency
- ▶ Migration Consulting Competency
- ▶ Nonprofit Consulting Competency
- ▶ Government Consulting Competency

Industry Awards & Recognition

- ▶ CRN MSP 500 '20, '21, '22, '23
- ▶ 2022 MSP of the Year: MSP Innovation Awards
- ▶ 2021 AWS Growth Partner of the Year: VMware Cloud on AWS
- ▶ Stratus Award for Cloud Computing '21, '22
- ▶ 2021 Cloud Services Provider of the Year Channel Innovation Awards
- ▶ 2020 AWS Global Public Sector Partner Award for Best Partner Transformation

HashiCorp Competencies

- ▶ Infrastructure Competency
- ▶ Security Competency
- ▶ Terraform Certified Implementation
- ▶ Vault Certified Implementation

Strategic Ecosystem of Cloud, Data, Automation, and Modernization Technology Partners

Experience ▶ Expertise ▶ Execution

Effectual is an AWS Premier Consulting Partner offering cloud first managed and professional services that enable modernization for commercial enterprises and the public sector.

Solve Your Toughest Challenges Faster & Uncover New Opportunities to Innovate

With years of experience helping customers modernize workloads, our team supports digital transformation and advanced platform engineering engagements, integrating the following design principles and best practices:

Cloud Application Architecture

Our Cloud Application Architecture is application-centric, ensuring that platform designs are tailored to the specific needs of your applications. This ensures optimal performance, scalability, and responsiveness, resulting in seamless user experiences and streamlined operations.

Infrastructure as Code

By leveraging Infrastructure as Code, we translate infrastructure blueprints into code, enabling consistent, repeatable, and automated deployments. This not only reduces human error but also enhances the speed and resilience of platform provisioning, adapting swiftly to evolving business requirements.

Modern Deployment Platforms

We offer CI/CD methodologies that enable streamlined code integration and automate deployment processes. Embracing modern deployment tools and practices, we deliver quick releases, shortened feedback cycles, and robust performance, bridging the gap between development and operations seamlessly.

Access to AWS Funding

As an AWS Premier Consulting Partner with multiple competencies and service delivery designations, we have access to funding programs that support greenfield and modernization initiatives to accelerate innovation.
